There are other J.D’s on campus. They are not the University’s attorneys & are not authorized to give you legal advice.

Ethical duty is to the University, not the individual

Attorney-client privilege is on behalf of the University

Michigan FOIA

- State law designed to guarantee public access to public records of government bodies at all levels of Michigan government.

- MIFOIA provides that all communications of a public agency or public employee are subject to disclosure unless specifically exempted by the Act.
A “writing” . . . prepared, owned, used, in the possession of, or retained by a public body *in the performance of an official function*, from the time it is created.

A writing includes paper documents, e-mails, computer disks, tapes, videotapes or information stored on any form of electronic or other media.
Where a record is kept does not matter for purposes of FOIA
- Personal emails on a work computer
- Work emails on a personal computer
- Documents in your car or home office

The email address one uses does not matter

Cell phones
- Text messages and voicemail messages may be subject to FOIA if they meet the definition of a public record

FOIA: A Few Points to Remember

- Any document can be requested (and emails are documents!).
- A document must be released unless there is a specific exemption in the statute that allows all or a part of the document to be withheld.
- Financial documents tend to go to the very core purpose of FOIA and are therefore likely to be released.
- If you have any questions, don’t hesitate to contact the FOIA Office.
Personnel Files
Michigan law defines a "personnel record" to include any "record kept by the employer that identifies the employee, to the extent that the record is used or has been used, or may affect or be used relative to that employee's qualifications for employment, promotion, transfer, additional compensation, or disciplinary action."
In other words, any document (including emails) that may affect or be used in connection with a prospective personnel action should be included in the employee's personnel file.

Loose notes that a supervisor keeps for possible future reference need not be included. However, notes that are used as a basis for a personnel action or a supervisor's memo that is shared with others or that may affect an employment decision must be included.
Personnel Files: What to Include?

- Employee medical information
- Grievance materials
- Annual evaluations/performance documents
- Discipline
- Student complaints
- Complaints from colleagues/staff
- Email correspondence
- Harassment/discrimination investigations

  ○ Especially if the work has started

• “Meeting of the Minds”
Why get contracts reviewed?

- To get the deal you think you have made
- To minimize risk
- To be able to get your agreement properly signed (signature authority)
How do I get my contract reviewed?

- Purchasing
  - Goods and Services

- Office of Sponsored Programs or Business Connect
  - Research

- Office of the General Counsel or Business Connect
