Welcome to Michigan State University Research Office of the Vice President for Research & Graduate Studies

New Administrator Orientation
August 9, 2017
Research: The Foundation for Success

- Research is the basis for education and outreach
- Dynamic research programs—based on a forward-thinking research agenda—address problems of today and tomorrow
- Furthering research – advancing knowledge – gives MSU international prominence
Mission of OVPRGS

- Create the institutional vision for research
- Advocate for research and creative activities within MSU and beyond
- Increase the quality and quantity of research and creative endeavors at MSU
- Assure the integrity of the research process in all its diverse dimensions
Why Enhance Research?

- MSU is a research-extensive university (member of AAU)
- Research and scholarly activity is closely linked to graduate and undergraduate education
- Research – especially federal funding – determines national and international reputation
- Facilities and administrative (F&A) rates reduce university's subsidy for research, leverages central funds
- Research grants enable procurement of major equipment and sustain core research facilities
- Research contributes to the state’s economy
How Will We Grow Research?

Take intelligent risks

• No mistakes means too risk-averse
• Fail early, correct fast
• Incentives must allow for occasional mistakes: Silicon Valley
• Exponential returns for successful risks – we forego these returns if we are too risk-averse
How Will We Grow Research?

Leadership: rational and smart

• “No brainer” decisions must be predictable

• Transparency in decision making (metrics, criteria) reduces second-guessing (wasted effort within organization)

• Staff and team should be able to (largely) predict decisions in advance, in order to plan
How Will We Grow Research?

• Pursue larger share of federal research funds
  • Faculty in areas where external support is available must compete successfully for it
  • Faculty must submit large multi-investigator proposals (linked to cluster hires)

• Enhance corporate research activity
  • MSU Business-CONNECT
  • MSU Technologies
  • MSU Spartan Innovations

MSU Innovation Center
External Funding Sources

- **SciVal** [http://www.funding.scival.com/home#b](http://www.funding.scival.com/home#b) comprehensive funding database of federal and private foundations
- **VPRGS website** [http://vprgs.msu.edu/find-funding](http://vprgs.msu.edu/find-funding) lists many external funding sources and internal programs
- **Office of Research Facilitation and Dissemination** [http://vprgs.msu.edu/funding-opportunities](http://vprgs.msu.edu/funding-opportunities) some funding or limited submission opportunities emailed directly to faculty
- **MSU Libraries** offers “Grants and Related Resources” at [http://libguides.lib.msu.edu/grants](http://libguides.lib.msu.edu/grants)
- **Other information sources**: [http://grants.gov/](http://grants.gov/) lists all federal funding opportunities
Institutionally Limited Proposals

- Limited submission opportunities, including faculty scholar and fellowship programs, available at http://vprgs.msu.edu/funding-opportunities/institutionally-limited

- OVPRGS conducts an internal selection process to determine which proposals will be submitted.
  - Where possible, internal deadlines 8 wks prior to submission.

- Researchers can subscribe to a listserv to receive email updates about opportunities at limited@msu.edu
  - Note, there may be other institutionally limited funding opportunities not listed.
Internal Funding Sources

• Competitive, university-wide, peer-reviewed internal grants programs support scholarly activities and provide seed funding for future proposals. https://gps.vprgs.msu.edu/

• **Humanities and Arts Research Program (HARP)**
  • Scholarship Development proposal (deadline in October)
  • Scholarship Production proposals (semiannually)

• **Strategic Partnership Grant** proposals solicited in the fall

• **New initiative:** Research in Autism, Intellectual and Neurodevelopmental Disabilities (RAIND)
Arranging for Matching Funds and Space

• When funding agencies require matching funds
  – Research associate dean
  – Negotiate a split among department, college, OVPRGS, provost

• Space concerns
  – Dean/research associate dean/department chair/director
Sponsored Programs Administration

• The Office of Sponsored Programs (OSP): unit within the Office of the Vice President for Research and Graduate Studies (organizational affiliation to chief financial officer and controller) that provides **pre-award processing**

• Contract and Grant Administration (CGA): **post-award administration**, assisting with the financial and contractual administration of grants, cooperative agreements, and contracts

  [https://osp.msu.edu/Default.aspx](https://osp.msu.edu/Default.aspx)
Proposal Development Assistance

• Office of Research Facilitation and Dissemination (ORFD)
  • Offers writing support on large, multi-author proposals. Call 432-4499 or vprgs.msu.edu
  • Presents seminars and workshops, including monthly coffee break discussions. Check calendar http://vprgs.msu.edu/calendar for details.

Note: Your college or department may also offer proposal assistance.
Research Misconduct

• **Research Integrity Officer (RIO):** Jim Pivarnik, rio@msu.edu; 432-6698; www.rio.msu.edu

• **Faculty Conflict of Interest Officer:** Brian Mattes, mattesbr@msu.edu; 884-7000; http://coi.msu.edu

• **Responsible Conduct of Research** series of presentations http://grad.msu.edu/researchintegrity/
Review and Promotion

- Clearly stated expectations for faculty performance
- Thorough **annual evaluation** of performance
- **Role of OVPRGS** in the P&T process
- Strong **mentoring** programs
  - Internal to the department
  - External to the department
    - Research integrity—RIO and RCR
    - Faculty conflict of interest
More Information...

vprgs.msu.edu
Export Control – Technology

1. The U.S. government controls “deemed” exports of certain technology inside the U.S., as well as exports abroad.

2. “Fundamental research” on a US university campus is excluded from export controls under ITAR (military) and EAR (dual use) provisions. Publication is key.

3. The “Fundamental Research Exclusion” is lost for:
   a. Encryption;
   b. If publication or citizenship restrictions apply;
   c. If in-bound controlled data or equipment;
   d. For contracted prototypes or defense services.

4. ITAR controlled technology is restricted to U.S. citizens and permanent residents. EAR tech varies by specific citizenship.
University Charged with Export Violations

BY: THOMAS B. MCVEY & JAHNA M. HARTWIG

The University of Massachusetts at Lowell was charged by the Bureau of Industry and Security (“BIS”) for violating export control laws in connection with the export of an atmospheric testing device and related equipment. Specifically, the University was charged with exporting items classified as EAR99 to a party on the BIS Entity List. This case reinforces the important point that even universities engaged in fundamental research are required to comply with export control laws. It also reinforces the importance of prohibited party list screening as a mandatory part of export compliance...
Trade Sanctions

E.g., U.S. Treasury’s “Specially Designated Nationals” list and Trade Sanctions imply:

- MSU Dubai – avoid Bank Melli (Iran gov’t link).

- MSU Alumni Association – participants must be careful during upcoming Cuba tourism.

- MSU USAID researchers – participants must be careful in Myanmar (Burma) project.

For EC&TS assistance: Jamie Haberichter 432-4499
Issue Escalation

When in doubt, **ask** -- any time, day or night. OVPRGS staff can help. (517) 432-4499

Failure to escalate some issues can be a “career crash landing”.

- Health and safety concerns
- Criminality, discrimination, harassment
- Research or fiscal misconduct
- Regulatory compliance

New administrators frequently overlook the Office of the General Counsel as a resource.
Regulatory Affairs - Who are we?

• Human Research Protection Program
• Animal Care Program
• Environmental Health and Safety
• Institutional Stem Cell Research Committee
• Conflict of Interest
The Committees

Institutional Animal Care & Use Committee - Sue Barman, Chair
Sally Light, IACUC Administrator
Phone: 517-432-3154
E-mail: barman@msu.edu

Biological Safety Office – John Gerlach, Chair
Jamie Willard, Biological Safety Officer
Phone: 517-353-1877
E-mail: cherryme@msu.edu

Radiation Safety Office – Chris Waters, Chair
Bryan Harris, Radiation Safety Officer
Phone: 517-884-3309
E-mail: harris@ehs.msu.edu

Chemical Safety Office – Karen Chou, Chair
Genevieve Cottrell, Chemical Safety Officer
Phone: 517-432-8715
E-mail: cotre36@ehs.msu.edu

Campus Animal Resources
Claire Hankenson, University Attending Veterinarian
Phone: 517-353-5064
E-mail: fclaire@msu.edu

Faculty Conflict of Interest Office
Brian Mattes, Director
Phone: 517-884-7000
Email: mattesbr@msu.edu

Human Research Protection Program (HRPP)
Kristen Burt, Director
Ashir Kumar, Chair BIRB - Harry McGee, Chair SIRB
Phone: 517-884-6020
E-mail: irb@msu.edu

Stem Cell Oversight – Katheryn Meek, Chair
Kristen Burt, Director
Phone: 517-884-6020
E-mail: burtkris@msu.edu

Campus Animal Resources
Claire Hankenson, University Attending Veterinarian
Phone: 517-353-5064
E-mail: fclaire@msu.edu

Faculty Conflict of Interest Office
Brian Mattes, Director
Phone: 517-884-7000
Email: mattesbr@msu.edu

Human Research Protection Program (HRPP)
Kristen Burt, Director
Ashir Kumar, Chair BIRB - Harry McGee, Chair SIRB
Phone: 517-884-6020
E-mail: irb@msu.edu

Stem Cell Oversight – Katheryn Meek, Chair
Kristen Burt, Director
Phone: 517-884-6020
E-mail: burtkris@msu.edu
What do we do?

• Facilitate research
  • Transfer ongoing work – all work requires a protocol
  • Help with COI disclosures
• Protect the research subject and the investigator
• Maintain compliance with state and federal laws, regulations and policies
• Training
• Accreditation
How can we help investigators?

• Assist faculty in working through protocol approval process
• Help stay in compliance through post-approval monitoring
• Provide online and hands-on training
• Work with your faculty to ensure a safe work environment
New Compliance Management Suite

- New web-based system for:
  - Institutional Review Board (IRB) – December 2017
  - Institutional Animal Care and Use Committee (IACUC) – Spring 2018
  - Environmental Health and Safety (EHS) – Fall 2018
- Some anticipated benefits:
  - Streamline the creation, submission, and review of applications and protocols for researchers and reviewers
  - Improved security and transparency for compliance processes
  - Allow researchers to better track approved documents
- More information about the deployment of the new system will be available on the Research Administration Project website (ra-project.vprgs.msu.edu) and the ORA website (ora.msu.edu/)
Questions

www.ora.msu.edu

It is always best to directly contact the regulatory office with questions!
What Every New Administrator Should Know About Research Misconduct

James M. Pivarnik, PhD
Research Integrity Officer (RIO)
Michigan State University

www.rio.msu.edu
RIO@msu.edu
107 Olds Hall
432-6698
What the RIO does

• The RIO is responsible for seeing to it that the MSU Procedures Concerning Allegations of Misconduct in Research and Creative Activities are carried out in an unbiased, confidential, and professional manner.

• Required for any institution seeking and accepting federal funding (42 CFR 93)
The role of the RIO

• The RIO shall coordinate implementation of these Procedures and shall be responsible for their fair and impartial administration. The RIO shall not be an advocate for the Complainant or the Respondent.
What exactly is “Research Misconduct”? 
Research Misconduct

Fabrication, Falsification, Plagiarism, or any other practice, that Seriously Deviates from practices commonly accepted in the discipline or in the academic and research communities generally in proposing, performing, reviewing, or reporting Research and Creative Activities. Misconduct does not include appropriative practices in the Creative Arts insofar as they accord with accepted standards in the relevant discipline. Misconduct does not include honest error or honest differences in the interpretation or judgment of Research data.
Standard of Determination for Research Misconduct

• There be a significant departure from accepted practices of the relevant research community; and

• The misconduct was committed intentionally, knowingly, or recklessly; and

• The allegation be proven by a preponderance of the evidence
“Unacceptable Research Practices” means practices that do not constitute Misconduct but that violate applicable laws, regulations, or other governmental requirements, or University rules or policies, of which the Respondent had received notice or of which the Respondent reasonably should have been aware, for proposing, performing, reviewing, or reporting Research or Creative Activities.
What about individuals who are always on the edge?
• “Questionable Research Practices” means practices that do not constitute Misconduct or Unacceptable Research Practices but that require attention because they could erode confidence in the integrity of Research or Creative Activities.
Question

• What percentage of potential allegations coming to our office is associated with some sort of previous conflict between/among the parties involved?

• ~ 90%!!
Is Research Misconduct an Issue at MSU?
What about prevention?

- Advice
- We encourage students, faculty and administrators to ask us about any research issues
What about prevention?

- Dispute Resolution

- We encourage students and faculty to seek our help with settling disputes
