MEMORANDUM

TO: Academic Deans

FROM: June Pierce Youatt, Provost

RE: FY 2020 Budget Requests

Earlier this academic year the planning process focused on strategic initiatives, specifically related to supporting faculty, elevating scholarship, and enhancing student success. The materials you prepared earlier should now guide budget requests that identify what resources are needed to execute your plans.

Budget Context

We are anticipating only a minimal increase in state support for higher education for this year, and in the near future. Given this challenge, MSU will continue to operate in an environment of limited new funds for strategic re-investment. There are always more good ideas proposed than new resources available to support. The Provost’s pool of recurring funds available to distribute is less than $4.0M. Additionally, due to ongoing multi-year funding commitments, the Provost begins the budget cycle with more than half of that pool already encumbered. Newly allocated resources are expected to catalyze new initiatives and are not expected to fully fund entire new projects. Units are encouraged to develop multiple funding plans for their strategic priorities, including: internal reallocations, internal funds matching central support, and partnering with other units on campus. Funding requests aligned with unit strategic priorities will be best positioned to receive funding.

Additionally, as referenced in the fall planning memo, please find enclosed non-academic staff FTE counts and key metrics (where applicable) for your unit. Also enclosed, please find a budgetary template for use in identifying specific budgetary requests for FY20 and a copy of your unit’s FY19 budget narrative as a guide for shaping this year’s submission.

Please review the FTE document to: 1) identify any discrepancies, 2) discuss where and for what purposes any increases occurred either overall or within
specific subunits, specifically within the past year, and 3) describe how your unit is working to limit future growth in non-academic staff FTE counts.

Following your review of the metrics report, provide commentary on both ideas for what the college and university can do to make progress in key areas as well as feedback on these and other metrics that can be utilized to best measure and monitor progress in the future.

In both cases, commentary can be included in the budget narrative.
